So, what's Step TWO?

Well, it's part of an exciting new project for Lancashire's voluntary, community and faith sector.

Over 40 organisations have already signed up and it's your chance to improve, shape and deliver vital services for children and young people.

Piloted by Young Lancashire, on behalf of Third Sector Lancashire, we'll explore the idea of collaboration to improve services, strengthen our networks and develop enterprising ideas.

So, why join in?

You'll benefit from our expertise and the experience of your peers. You can also tell us what training and organisational development you need to successfully bid for contracts and we'll get it for you.

We'd love you to be a part of it, so please RSVP as soon as possible:
